About R L Foote Design Studio

R L Foote Design Studio is a Melbourne, Australia based design studio focused on delivering some of the most unique and contemporary ceramic flatware, silicon food moulds, interior design objects and event based designs. We meticulously create everything in our Clifton Hill studio workshop.

The studio has a particular interest in the designed food and beverage experience, thinking not only about the physical elements of the space, flatware, tables, seats but also the ephemeral experience that runs along side these objects. Imagining how the food and drink is served, eaten, played with, we conceptualise new food forms, textures, tastes, cultural influences and their effect on the dining experience.

R L Foote Design Studio was founded by installation Artist, Designer, Chef and Food Designer Ryan L Foote whose diverse background provides a unique source of knowledge and inspiration.

Working with restaurants, interior designers and chefs, R L Foote Design Studio can design and produce customised flatware and objects to clients specification.

Tiki Cups

Fun and playful, these tall contemporary tiki cups are made in coloured porcelain with glaze oozing down the sides to create a dramatic effect. This cup would give any of your cocktail creations an edge, adding to the drinking experience.

85mm dia x 150mm

P (Pink), M (Mint),

Crystalline Cups

Extensive testing and refinement has occurred to discover a precise formula of up to ten minerals which creates this crystalline effect. Available in two shapes, these cups are short, perfect for refilling from a teapot or enjoying a short cocktail.

Aperitif Cup

The perfect size for holding an afternoon aperitif, this cup is simple yet the scalloped detail provides complexity. With a matte exterior and gloss finish inside, you can pour and enjoy anything sippable, just add sunset!

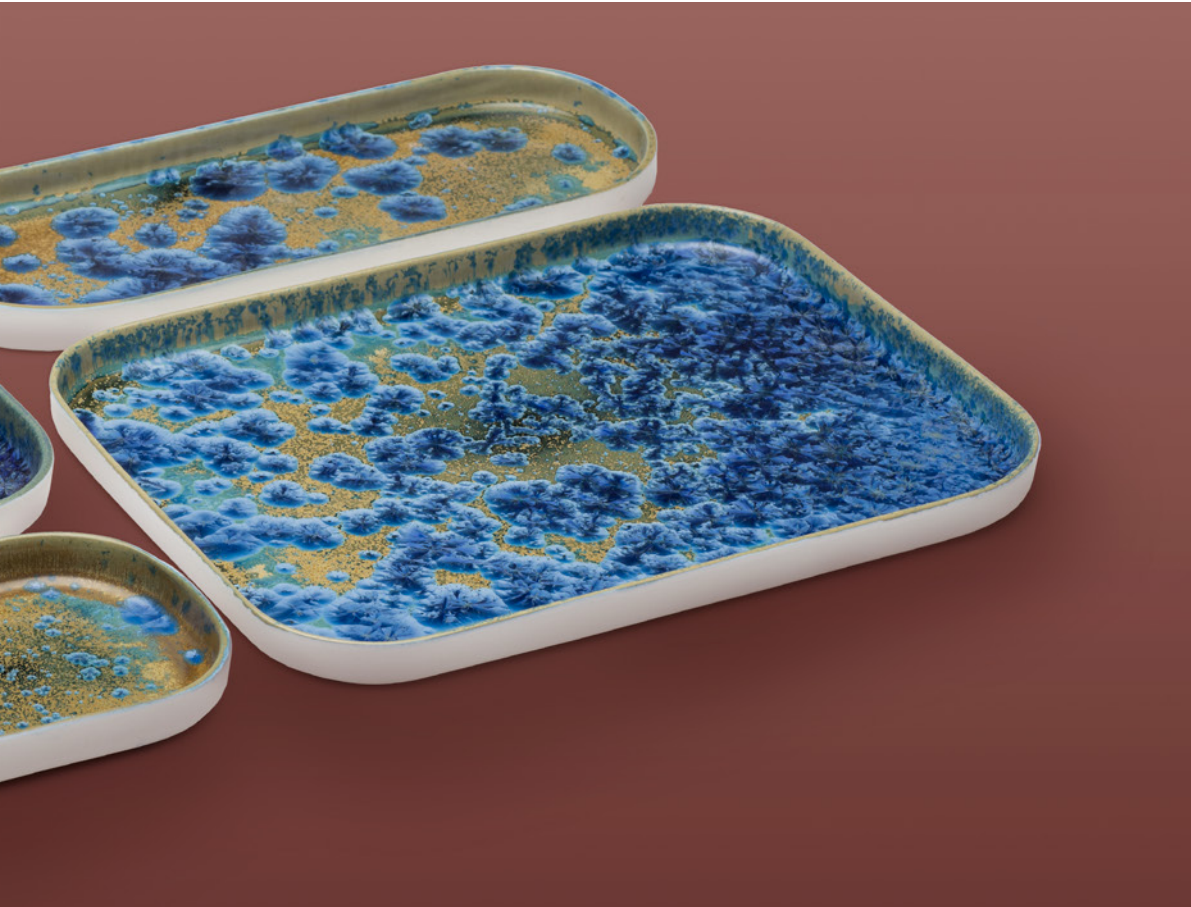

Sake Cups

With an endless variety of glaze options, these sweet sake cups are a pleasure to hold and sip from. They work as a matching collection or with a mix of colours and finishes.

Our breathtaking Crystalline Range featuring our most unique and complex glaze yet!

Part art part alchemy, each glaze contains about 10 different minerals that are painstakingly mixed and applied to the ceramics.

The pieces are then fired, during the extreme heat and atmosphere of the kiln, crystals start to form, growing to reveal their fractal shapes and vibrant colours.

After years of testing and refinement we have developed a range of captivating glazes. Where each piece takes on its own identity in the firing making it completely unique and unrepeatable.

The Diamond Lab platter is a beautiful sculptural piece which can be plated on either side.

The Diamond Lab range was originally developed to accompany Ryan L Foote's Popup Food Art Experience.

This unique diamond inspired popup event brings together and pushes the boundaries of the creative worlds of Fine Art, Gastronomy, Design and Fashion in one unforgettable experience.

Every element from the sculpted diamond table to crisp porcelain tableware and food grade moulds were delicately created by Ryan L Foote.

Custom Designs

R L Foote Design Studio can create costume pieces to suit your needs if your a restaurant, bar, hotel, or corporate customer, we can help from customising some of our existing collections, complete new designs and glazes to even manufacturing your designs under your brand.

If your looking for something you cant find anywhere else we would love to help.

Please reach out and tell us what you're looking for.

Terms & Conditions

The wholesale prices are valid for chefs, restaurants, retail or gallery shops, kitchen supply centres, approved resellers, food, interior & prop stylists. By accepting wholesale pricing, you agree to credit R L Foote Design Studio in any publication of images featuring the work - digital or otherwise (including but not limited to social media, websites & printed material such as cookbooks etc).

We check each piece carefully before shipping it out. However, as all our pieces are delicately crafted by hand, there might be slight variances in size, colour, texture or pattern etc that we do not consider defects, but rather the uniqueness of an artisanal product.

Delivery & Shipping

Standard turnaround time is 2-8 weeks before shipment unless the items are in stock. This may be longer (for larger orders, if poor weather increases drying/firing time, or we have large scale projects underway). Please discuss your deadlines with us before ordering.

We will include the shipping price in your quote. We are not responsible for any taxes or duties that may be incurred on international orders.

Breakages

If some of the items had arrived broken, please email us a photo of the broken goods as it had arrived in the packaging within 5 days of receipt. We will arrange to send replacement pieces.
